The maximum amount of Rupees Seven Billion (LKR 7,000,000,000/-) will be raised by issuing a maximum of Seventy Million (70,000,000) Debentures.

CBC hereby invites the public to make applications for the Debentures (Type A and Type B) which shall rank equal and pari passu with each other, apart from interest and tenor, without any preference or priority one over the other.

5.2 SUBSCRIPTION LIST

Subject to the provisions contained below, the subscription list for the Debentures pursuant to this Prospectus will open at 9.30 a.m. on February 29, 2016 and shall remain open for 14 market days until closure at 4.30 p.m. on March 18, 2016.

However, the subscription list may be closed prior to March 18, 2016 in the following manner:

- (a) The maximum of 70,000,000 Debentures being fully subscribed; or
- (b) The Board of Directors of CBC decides to close the Issue upon the initial Issue of 50,000,000 Debentures becoming fully subscribed.

5.3 OBJECTIVES OF THE ISSUE

- (a) The funds raised through the Debenture Issue will be utilised to finance expansion by increasing the lending portfolio of the Bank within 12 months from the date of the allotment.
- (b) Subordinated funds raised through the debenture issue are expected to further improve the Capital Adequacy of the Bank's Balance Sheet, by strengthening its Tier II Capital.

PRESENT CAPITAL ADEQUACY RATIO (CAR) OF THE BANK AND EFFECT OF PROPOSED DEBENTURE ISSUE ON CAR

All in Rs. Millions	As at 30.09.2015	With Debenture as at 30.09.2015	
		Rs. 5 Billion	Rs. 7 Billion
Tier II Capital	78,602.69	83,602.69	85,602.69
Tier II - Minimum requirement 10%	14.65%	15.58%	15.95%

The Bank has obtained approval from the Central Bank of Sri Lanka (CBSL) to include the value of the Debentures under Tier II Capital.

5.0 PRINCIPAL FEATURES OF THE ISSUE

(c) The Debenture Issue will reduce maturity gaps in the Bank's Balance Sheet.

No shareholder approval will be required for the financing of expansion and/or the investment in Treasury Bills or Treasury Bonds. The funds will not be used for Related Party Transactions.

The Bank does not require the shareholder approval for the Issue and Listing of the Debentures.

RISKS RELATED TO ACHIEVING THE OBJECTIVES OF THE ISSUE

The funds raised through the Debenture Issue will be utilised to finance expansion by increasing the lending book of the Bank. In case the funds raised through the Debenture Issue are not utilised to meet the above stated objective, due to any unforeseen change in the business environment, the Bank will continue to hold the funds in Treasury Bills and/ or Treasury Bonds as the case may be.

Considering the loan book growth experienced by the Bank it is unlikely that the funds raised through the Debenture Issue will not be utilised for the stated purpose during the stipulated time period. Even if the funds raised through the Debenture Issue are not utilised for expansion, it is expected that the other objectives of the Debenture Issue (such as improving the Capital Adequacy Ratio and reducing maturity gaps in the Balance Sheet) will be achieved.

5.10 RATING OF THE DEBENTURE

Fitch Ratings Lanka Limited has assigned a National Long-Term Rating of AA- (lka) to the Debentures.

A copy of the rating certificate is given in Annexure A of this Prospectus.

5.11 BENEFITS OF INVESTING IN DEBENTURES

- Provides an opportunity to receive interest income while diversifying the existing investment portfolio.
- Provides an opportunity to earn a regular cash flow of interest payments on a semi annual basis up to a fixed period from Five (05) years or Ten (10) years in the case of Type 'A' and Type 'B'.
- As explained above in section 5.7 of this Prospectus, interest income and profit arising from the Debentures are exempted from income tax.
- Opportunity to realise capital gains according to interest rate fluctuations in the financial market. Further if the investment is held to maturity, there will be no capital loss incurred.
- Listed Debentures provide the investor with an exit option through the CSE thereby bringing liquidity to these Debentures.
- These Debentures could be used as collateral to obtain both corporate and personal facilities from financial institutions, subject to the policies of those institutions.

5.12 RIGHTS OF DEBENTURE HOLDERS

(a) Debenture holders are entitled to the following rights:

- Receiving principal at maturity and semi annual interest at rates set out in Sections 5.5 of this Prospectus.
- Ranking above the ordinary voting and non-voting shareholders and preference shareholders in the event of liquidation.
- Calling and attending meetings of Debenture holders as set out in the Trust Deed.

5.0 PRINCIPAL FEATURES OF THE ISSUE

(b) Debenture holders are not entitled to the following rights:

- Attending and voting at meetings of holders of Shares and other Debentures.
- Sharing in the profits of the Bank;
- Participating in any surplus in the event of liquidation;
- Calling for Debenture before maturity.

5.13 OBLIGATIONS OF DEBENTURE HOLDERS

Each Debenture holder must ensure that the information in respect of the securities account maintained with the CDS is up-to-date and accurate. Each Debenture holder shall absolve the Bank from any responsibility or liability in respect of any error or inaccuracy or absence of necessary changes in the information recorded with the CDS. Provided further that the Debenture holder(s) shall absolve the CSE and the CDS from any responsibility or liability in respect of any error or inaccuracy or absence of necessary changes in the information recorded with the CDS where such errors or inaccuracies or absence of changes are attributable to any act or omission of the Debentureholder(s).

5.14 RISKS INVOLVED IN INVESTING IN THE DEBENTURES

Unsecured, Subordinated, Redeemable Debentures do not carry a charge on a specific asset of the Bank and are redeemable only at the expiry of the maturity period.

SUBSCRIBERS TO THE DEBENTURES COULD BE EXPOSED TO THE FOLLOWING RISKS:

Interest Rate Risk

Provided all other factors are equal the market price of Debentures will generally fluctuate if there is a change in 'market interest rates'. Thus as 'market interest rates' rise, the market price of Debentures may drop; and as 'market interest rates' drop, the price of Debentures may rise. 'Market interest rate' means the interest rates, which prevail at a given time for similar investments with a similar maturity and risk profile.

Price Risk

Price Risk is the risk arising from a change in the price/value of a Debenture from a movement in the interest rate environment. Price Risk could result in capital gains or losses to Debenture holders depending on the direction of interest rate movement. Price Risk will be more pronounced in fixed rate Debentures than in their floating rate counterparts.

Re-investment Risk

The Commercial Bank Debentures will pay interest on a semi annual basis. The investor may decide to re-invest this interest payment and earn interest thereon. Depending on the prevailing interest rates in the market, the interest rates at which Debenture holders could reinvest such interest may be higher or lower than the return Commercial Bank offers on the Debentures. This uncertainty is known as re-investment risk.

Call Risk

Generally Debentures may have a call option on the Debentures giving the Issuer the right to replace the Debentures with a lower interest bearing security. The uncertainty of the Debenture investor thus being called upon to terminate the investment early is known as 'Call Risk'. However, the Commercial Bank Debentures do not carry this risk since Commercial Bank does not intend to exercise a call option on the Debentures.

5.0 PRINCIPAL FEATURES OF THE ISSUE

Default Risk

Default risk, also referred to as credit risk, means the risk that the issuer of Debentures may default, i.e., the issuer will not be able to pay interest and principal payments on a timely basis. Default risk is evaluated by Rating Agencies. Commercial Bank has been assigned a National Long Term Rating of AA (Ika)/stable by Fitch Ratings Lanka Limited.

The proposed Debenture issue has been rated by Fitch Ratings Lanka Limited (the Rating Company to the issue) which has assigned a National Long Term Rating of AA- (Ika) rating to the proposed Debenture issue. The Rating report is given in Annexure A in this prospectus.

Liquidity Risk

Liquidity risk depends on the ease with which the Debentures can be sold after the initial placement. In order to reduce the liquidity risk the Company has applied for a listing of these Debentures on the CSE.

Duration Risk

The term duration has a special meaning in the context of Debentures. It is a measurement of how long, in years, it takes for the price of a Debenture to be repaid by its internal cash flows. It is an important measure for investors to consider, as Debentures with higher durations carry more risk and have higher price volatility than Debentures with lower durations.

Winding up

The claims of the Debenture holders shall, in the event of the winding up of the Bank, rank after all the claims of holders of senior debt and claims of secured and other unsecured creditors of the Bank and any preferential claims under any statutes governing the Bank but shall rank in priority to and over the claims and rights of the ordinary and preference Shareholder/s of the Bank.

5.15 TRANSFER OF THE DEBENTURES

- (a) These Debentures shall be freely transferable and the registration of such transfer shall not be subject to any restriction, save and except to the extent required for compliance with statutory requirements.
- (b) The Debentures shall be transferable and transmittable through the CDS as long as the Debentures are listed in the CSE. Subject to the provisions contained herein the Issuer may register without assuming any liability any transfer of Debentures, which are in accordance with the statutory requirements and rules and regulations in force for the time being as laid down by the CSE, SEC and the CDS.
- (c) In the case of death of a Debenture holder
 - The survivor where the deceased was a joint holder; and
 - The executors or administrators of the deceased or where the administration of the Estate of the deceased is in law not compulsory the heirs of the deceased where such Debenture holder was the sole or only surviving holder; shall be the only persons recognised by the Issuer as having any title to his/her Debentures.
- (d) Any person becoming entitled to any Debenture in consequence of bankruptcy or winding up of any Debenture holder, upon producing proper evidence that he/she sustains the character in respect of which he/she proposes to act or his/her title as the Board of Directors of the Issuer thinks sufficient may in the discretion of the Board be substituted and accordingly registered as a Debenture holder in respect of such Debentures subject to the applicable laws rules and regulations of the Issuer, CDS, CSE and SEC.
- (e) No change of ownership in contravention to these conditions will be recognised by the Issuer.

7.1 OVERVIEW OF THE BANK

Commercial Bank of Ceylon PLC is a Public Limited Liability Company, which was incorporated under the Companies Ordinance No. 51 of 1938 on June 25, 1969 in Colombo and was issued a certificate to commence business on October 7, 1969. The Company has been licensed to operate as a Commercial Bank under the Banking Act No. 30 of 1988 from December 21, 1989.

The origins of Commercial Bank can be traced to 1920, when the Eastern Bank, an old established British Bank opened a branch in Colombo. In 1957 the Standard Chartered Bank acquired the entire share capital of the Eastern Bank, thus making it a wholly-owned subsidiary. In 1969, Commercial Bank of Ceylon PLC was incorporated as a local Bank to take over the assets, liabilities and business of the Colombo branch of the Eastern Bank.

The Standard Chartered Bank retained 40 per centum of the shares of the newly incorporated Commercial Bank and the Government of Sri Lanka acquired another 30 per centum of the shares. The Standard Chartered Bank held its 40 per centum stake in Commercial Bank until 1997, when the DFCC Bank acquired 29.5 per centum of the shares from the Standard Chartered Bank, with the concurrence of the Monetary Board. Part of the shareholding of the Government of Sri Lanka through the Sri Lanka Insurance Corporation was also divested in March 2003. International Finance Corporation acquired 15 per centum of the shares so divested while a further 5 per centum was offered to the staff of the Bank through an Employee Share Ownership Plan. As at December 31, 2015, the DFCC Bank and Employees Provident Fund held 14.75% and 9.70% of the voting shares respectively. (For a detailed breakdown of the twenty largest shareholders of Commercial Bank as at December 31, 2015 please refer Section 7.5 of this Prospectus.)

It has 245 customer outlets, all of which are linked on line real time to a modern computer network. Commercial Bank is the first Sri Lankan Bank to operate a branch network beyond borders.

Fitch Ratings-Colombo-13 January 2016: Fitch Ratings Lanka has assigned Commercial Bank of Ceylon PLC's (CB; AA(lka)/Stable) proposed Basel II-compliant subordinated debentures of up to LKR7bn a final National Long-Term Rating of 'AA-(lka)'.

The final rating is the same as the expected rating assigned on 22 December 2015, and follows the receipt of documents conforming to information already received

The proposed issuance, which will have tenors of five and 10 years and carry fixed coupons, will be listed on the Colombo Stock Exchange. CB expects to use the proceeds to strengthen its Tier 2 capital base and reduce asset-and-liability maturity mismatches.

KEY RATING DRIVERS

The issue is rated one notch below CB's National Long-Term Rating, to reflect the subordination to senior unsecured creditors.

The best risk within a country is rated 'AAA' and other credits are rated only relative to this risk. National Ratings are designed for use mainly by local investors in local markets, and are signified by the addition of an identifier for the country concerned, such as 'AAA(lka)' for National Ratings in Sri Lanka.
